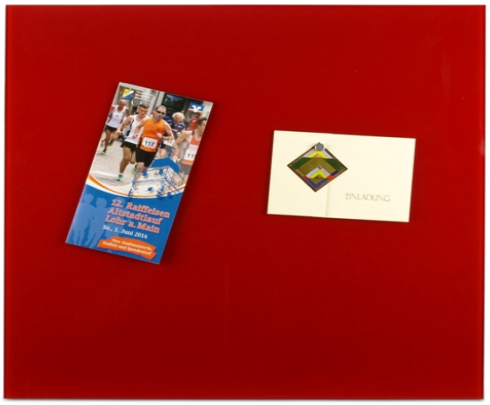
Magnetic glass board 50 x 50 cm with pen and magnets, red



Product number: GMT-500x500-R

With this memo board with a rimless glass plate in a timeless design, you can set colorful accents in the living area or office. The magnetic glass board is also an eye-catcher as a wall decoration thanks to the various combinable colors. Magnetically attach notes, postcards, pictures, etc. to this board.

With the enclosed board marker you can write on the hardened safety glass and wipe off your notes without leaving any residue. The board comes with 2 neodymium super magnets as basic equipment. You can find more suitable magnets for your glass pin board at our super magnets made of neodymium.
It is best to order additional magnets at the same time so that you can equip your magnetic glass board with sufficient equipment. We recommend the following magnets: Discmagnet Ø 8.0 x 8.0 mm N42 nickel - holds 2.5 kg and Discmagnet Ø 15.0 x 8.0 mm N42 nickel - holds 7.2 kg

Item Features:

- Dimensions: 50 x 50 x 1.2 cm
- Safety glass, thickness 4 mm
- Metal plate with 4 mounting holes, 0.4 mm thick
- including fastening material
- with 1 pen and 2 neodymium magnets: Discmagnet Ø 10.0 x 5.0 mm N40 nickel - holds 3 kg

Important Note:
You can only use neodymium magnets on this glass pin board! Magnets with a ferrite insert are far too weak for this and cannot be used.

Technical specifications

Lenght:	500 mm	**Width:**	500 mm
Height H:	12 mm	**Weight:**	3,3 kg

Production information and safety instructions

The product conforms to the European RoHS Community legislation

The product conforms to the European RoHS Community legislation (2002/95/EC - RoHS - Restriction of Hazardous Substances) relating to the use and the employment of certain hazardous substances in electrical and electronic devices.

⚠ Please observe our safety instructions for this product.

Manufacturer: magnets4you GmbH, Bgm.-Dr.-Nebel-Str. 15a, 97816 Lohr a. Main, Deutschland, service@magnet-shop.net

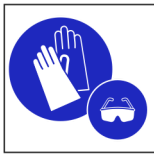
Important safety instructions for handling our magnets!

Permanent magnets and magnetic materials require special precautions. Please read the instructions carefully before use. If you have any further questions, please feel free to contact us. The company „magnets4you GmbH“ rejects any liability arising from improper handling of the magnets.

Handling

Increased caution with children:
Keep magnets away from children! Danger of swallowing and serious injuries!



When handling strong magnets, pay attention to appropriate safety measures and protective clothing. Before use, remove all magnetic objects and use protective gloves and glasses.

No mechanical processing and collisions!
Incorrect handling of the magnets leads to a loss of the magnetic effect and to the destruction of the magnet. In addition, highly flammable drilling dust and other significant health risks are caused by the following hazards.

Danger from magnets

Injuries
Improper handling of magnets can lead to bruises, contusions, or even broken bones.

Splinters
Magnets are brittle. Collisions cause small parts to splinter, which leads to health hazards and damage to the magnet.

Magnetic fields
Strong magnets can endanger and destroy electronic and mechanical components (pacemakers, data carriers, credit cards, electronic devices, etc.).

Persons with cardiac pacemakers must not expose themselves to magnetic fields.

Other Risks
- Many magnets have coatings that some people are allergic to. You should therefore avoid excessive skin contact with raw magnets
- Health hazards when they encounter food and drinking water. Only use magnets that are specifically designed for this area!

Transportation and shipping

When shipping magnets, applicable regulations for stray magnetic fields during air transport must be observed (IATA dangerous goods regulations). These provisions also apply to built-in magnets.
